

Importing Personal Property Into Northern Ireland

HOUSEHOLD GOODS AND PERSONAL EFFECTS

CUSTOMS REGULATIONS AND REQUIRED DOCUMENTS

Customs Regulations:

As a part of the United Kingdom, Northern Ireland follows all import regulations required by the United Kingdom. All shipments are subject to inspection. The customer should be present or the customer's Destination Agent allowed to clear shipment on their behalf.

Used household goods and personal effects are subject to VAT but are duty free including clothing, cosmetics, furniture, portable tools of trade, pets and other household goods and personal effects provided: The shipper is moving or returning to the EC (European Community) after having lived outside the EC for at least 12 continuous months. The goods have been in the shipper's possession and use outside of the EC for at least 6 months prior to importation. The items may be imported up to 6 months in advance of the transfer of residence and no later than 12 months after the shipper's arrival.

The effects were not obtained under a duty/tax-free scheme, except for the following: diplomats, members of officially recognized international organizations, members of NATO or UK forces and the civilian staff accompanying them, or spouses of any of the aforementioned.

The items must be kept for personal use and not be sold, lent, hired out or otherwise disposed of in the EC within 12 months of importation.

NOTE: As of 19 August 2010 an EORI (Economic Operators Registration and Identification) number is required for all imports and exports to clear Customs in the European Union.

The requirement was introduced by the European Commission in July 2009 to enhance security. The EORI number must be used in all electronic communications with Customs Offices and other government agencies and departments. This number is valid in all EU member states and replaces ALL Customs identification numbers including the TIN (Traders Identification Number). All business operators and private individuals not established in the EU must obtain the EORI number from the authorities in the respective EU member state wherein the client intends to operate or reside. Please consult with your Destination Agent for further details and assistance.
