

Importing Personal Property Into Colombia

HOUSEHOLD GOODS AND PERSONAL EFFECTS

CUSTOMS REGULATIONS AND REQUIRED DOCUMENTS

Customs Regulations:

All shipments are subject to inspection unless one has Diplomat Status. Client's presence is not required but must be in Colombia. Only ONE SHIPMENT from one origin allowed per family.

Consult Destination Agent if shipping goods via air & ocean as the requirements differ.

Household goods must arrive within 30 days before or up to 120 days after the arrival of the client. Client must have lived outside of the country for at least 2 years. Client must not have imported any household goods in the last seven years.

Customs may ask for a Bank Guarantee that the goods will not be sold for one year after importation

All shipments except diplomatic shipments must pay duty, import tax, sales tax (VAT) and any warehouse fees which are charged to the client's account. Duties are 20% and VAT of 16% on CIF assessed value of the household goods.

Returning Nationals must present proof of residency abroad of 2 years and not have any visits longer than 15 days during that period. The returning national cannot have imported household goods in the prior 5 years.

Container Fees: Expensive return charges may apply for 40' containers.

- ✓ Diplomatic Permit – Obtained from the Ministry of Foreign Affairs
- ✓ Import Permit – obtained from the Incomex Institute, once approved the Department of Environment will issue a Quality Certificate

*Foreign Diplomats are not required to obtain approval of the Import License prior to import.

NOTES:

Entry & Exit Requirements: Dual U.S-Colombian citizens must present a Colombian passport to enter and exit Colombia, and a U.S. passport to return to the United States. Be aware that any person born in Colombia may be considered a Colombian citizen, even if never documented as such. U.S. citizens born in Colombia or who otherwise have Colombian citizenship will need both a Colombian passport and a U.S. passport.

Safety & Security: US citizens are encouraged to enroll in the Smart Traveler Enrollment Program, to stay current with the latest safety and security announcements dispersed by the Embassy in your area. Your enrollment can also help the Department of State reach your family and friends in case of emergency. Narco-terrorist groups continues to affect some rural areas as well as large cities. The potential for violence by terrorists and other criminal elements exists in all parts of the country. U.S. government officials and their families in Colombia are permitted to travel to major cities in the country, but normally only by air. They may not use bus transportation, or travel by road outside urban areas at night. All Americans in Colombia are urged to follow these precautions.

Crime: Kidnapping remains a serious threat. American citizens have been the victim of violent crime, including kidnapping and murder. Firearms are prevalent in Colombia and altercations can often turn violent. Americans are urged to use ATMs only inside shopping malls or other protected locations. Driving to and from the location – rather than walking – provides added protection. Robbery of taxi passengers is a serious problem in Bogota, Cali and Medellin. The driver (one of the conspirators) will pick up the passenger and then stop to pick up two or more armed cohorts, who enter the cab, overpower the passenger, and take his/her belongings. If the passenger has an ATM card, the perpetrators may force the passenger to withdraw money from various ATM locations. One should use the telephone dispatch

service that most taxi companies offer. When a taxi is dispatched by telephone, the dispatcher creates a record of the call and the responding taxi. Record the license plate, company and other ID of the taxi.

Health: Colombia has imposed HIV/AIDS travel restrictions on all travelers with HIV/AIDS except those with PLHIV. A waiver may be requested from the [Colombian embassy](#). Verify this information with the Embassy of Colombia prior to travel.

Hepatitis A and B, Typhoid, and Yellow Fever immunizations are recommended. Malaria chemoprophylaxis is recommended for many areas of Columbia. Insect precautions are encouraged due to many insect borne illnesses. Americans relocating to Bogota may need time to adjust to the altitude of 8,600 feet, which can affect blood pressure, digestion, and energy level, headaches, sleeplessness, and other discomfort. Maintain hydration, and avoid strenuous exercise until acclimated to the altitude. Those with circulatory or respiratory problems should consult a physician before traveling to Bogota or other high-altitude locations.

Fumigation of Wood Packing Materials: Colombia enforces regulations regarding ISPM 15 requirements.
