NOTES:

Entry & Exit Requirements: US citizens residing in Egypt are encouraged to enroll in the Smart Traveler Enrollment Program to stay current regarding safety and security announcements provided by the Embassy or Consulate. It will also help your friends and family get in touch with you in an emergency. Diplomatic and Official passport holders are required without exception to have a visa before arrival in Egypt. The Egyptian Embassy in Washington is currently requiring 7-10 working days to process official visa requests, an expedite letter from the Department of State notwithstanding, so it is incumbent upon all official travelers to submit their visa requests and passports to the Egyptian Embassy well in advance of travel. Foreigners can acquire a work permit from the Ministry of Manpower and Immigration offices in the district of the employer, and accordingly are authorized residency in the country.

Safety & Security: The Egyptian-Gaza border has been re-opened on a permanent basis since June 2010 after being closed for three years. Travelers to Gaza from Egypt should read the [Travel Warning for Israel, West Bank, and Gaza](#), which advises against travel to Gaza.

Egyptian authorities may require that they execute an affidavit that they have read the Travel Warning for Israel, West Bank, and Gaza. The affidavit is an Egyptian requirement but is not a guarantee for crossing the border. The fee for the affidavit is \$50. Official U. S. government travel to the areas of Rafah and Al Arish in the North Sinai is restricted.

Crime: Crime is relatively low. While violence is rare there has been an increase in violence against women. The Embassy has received increasing reports of U.S. citizen women subject to violence, sexual harassment, verbal abuse, and rape in Egypt. Women have been groped in taxis and public places. The Consular Section strongly encourages women who seek our assistance to take legal action against perpetrators in order to bring them to justice.

Health: Evidence of an AIDS test is required for everyone staying over thirty days, for the purpose of studying or working in Egypt. The U.S. Department of State is unaware of any HIV/AIDS entry restrictions for visitors at this time. A test performed in the U.S. may be accepted under certain conditions. Please verify this information with the [Government of Egypt](#) prior to travel.

Fumigation of

Wood Packing Materials: Egypt has adopted ISPM15 requirements for wood packaging material (WPM). This regulation has been in effect since October 1, 2005.
