NOTES:

Entry & Exit Requirements: US citizens should carry a copy of their passport with them at all times so that, if questioned by local officials, proof of identity and U.S. citizenship is readily available. Children born to a Moroccan father may experience difficulty leaving Morocco without the father's permission. Under Moroccan law, these children are considered Moroccan citizens. Even if the children bear U.S. passports, immigration officials may require proof that the father has approved their departure before the children will be allowed to leave Morocco. Although women, regardless of their nationality, are normally granted custody of their children in divorces, the father must approve the children's departure from Morocco. U.S. citizen women married to Moroccans do not need their spouse's permission to leave Morocco.

Safety & Security: The potential for terrorist violence against U.S. citizens and interests remains high in Morocco. Moroccan authorities continue to disrupt groups seeking to attack U.S. or Western-affiliated and Moroccan government targets, arresting numerous individuals associated with international terrorist groups. With indications that such groups still seek to carry out attacks in Morocco, it is important for U.S. citizens to be keenly aware of their surroundings and adhere to prudent security practices such as avoiding predictable travel patterns and maintaining a low profile. Travel to the Western Sahara remains restricted; persons planning to travel to the region should obtain information on clearance requirements from the Moroccan Embassy.

Crime: Crime in Morocco is a serious concern, particularly in the major cities and tourist areas. Aggressive panhandling, pick-pocketing, purse-snatching, theft from occupied vehicles stopped in traffic and harassment of women are the most frequently reported crimes. Criminals have used weapons, primarily knives, during some street robberies and burglaries. These have occurred at any time of day and night, not only in isolated places or areas less frequented by visitors, but in crowded areas as well. Women walking alone in certain areas of cities and rural areas are particularly vulnerable to harassment from men. Women are advised to travel with a companion or in a group when possible and to ignore any harassment. Special Circumstances: Moroccan Customs authorities enforce strict regulations concerning temporary importation into or export from Morocco of items such as firearms, religious materials, antiquities, business equipment, and large quantities of currency.

Currency: Moroccan Customs procedures do not provide for accurate or reliable registration of large quantities of U.S. dollars brought into the country. As a result, U.S. citizens encounter difficulties when they attempt to depart with large amounts of cash. In particular, U.S. citizens with dual Moroccan nationality have been asked to provide proof of the source of the funds and have incurred heavy fines. The export of Moroccan currency (dirhams) is prohibited; however, Moroccan currency can be converted back into U.S. dollars prior to departure only if the traveler has a bank or money transfer receipt indicating he or she exchanged dollars for dirhams while in Morocco.

Fumigation of Wood Packing Materials: At this time Morocco does not require the ISPM 15 requirements for wood packing material (WPM).
