NOTES:

Fumigation of Wood Packing Materials: As of this printing Thailand does not require ISPM15 for wood packaging material (WPM).

Health: Typhoid and cholera vaccination is advised. Hepatitis B is highly endemic, A and E occur. Japanese encephalitis and dengue fever also occur and vaccination is suggested. HIV infection is rife.

NOTE: Those suspected or confirmed of carrying AIDS may be refused entry.

Food and water-borne diseases are common. It is strongly advised to only use bottled or sterilized water. Non pasteurized milk should be boiled. Uncooked meats and vegetables should also be avoided and fruit must be peeled before consumption.

Entry/Exit Requirements: Thai Immigration stamps in his/her passport the date on which the authorized stay in Thailand will expire. Anyone remaining in Thailand beyond this date without having received an official extension will be assessed an immediate cash fine of 500 Baht per day, up to a maximum of 20,000 Baht, when departing Thailand. Any foreigner found by police to be out of legal status prior to departure (during a Thai Immigration "sweep" through a guesthouse, for example) will be jailed, fined, deported at his or her own expense, and may be barred from re-entering Thailand.

In this regard, U.S. citizens should be aware that private "visa extension services," even those advertising in major periodicals or located close to Immigration offices or police stations, are illegal. A number of U.S. citizens are arrested at border crossings each year when the visas and entry stamps they have obtained through these illegal services are discovered to be counterfeit.

Consignment Instructions: Owner's documentation must be identical to name on Passport with full address and telephone number in Thailand

Declaration on AWB or BL should read as: "Used Personal Effects". Do not declare household goods on the AWB or BL
