NOTES:

Entry & Exit Requirements: Evidence of yellow fever vaccination, as well as polio vaccination for children under five is required. In Uganda, you may be taken in for questioning if you don’t have your passport, or a copy of it, together with your Ugandan visa.

Safety & Security: US citizens are encouraged to enroll in the Smart Traveler Enrollment Program, to stay up to date with the latest safety and security announcements dispersed by the Embassy in your area. Your enrollment can also help the Department of State reach your family and friends in case of emergency. U.S. citizens residing in Uganda should also be aware of threats to their safety posed by insurgent groups operating in the Democratic Republic of the Congo (DRC) and southern Sudan, and the potential of cross border attacks carried out by these armed groups. In addition, U.S. citizens traveling to the area commonly known as Karamoja in northeastern Uganda should also be aware of ongoing conflict and armed banditry in this region.

Fumigation of Wood Packing Materials: At this time Uganda does not require ISPM15 requirements for wood packaging material (WPM).

Health: Proof of Yellow Fever vaccination is required

Currency: \$20 and \$50 denominations are exchanged at a lower rate than \$100 currency notes. Notes printed earlier than 2000 may not be able to be exchanged. There are very few ATM’s that function with overseas accounts, thus having a Ugandan bank account in a necessity.
