Information concerning
provisions concerning the relief from duty or tax for
household contents and similar removal goods

In pursuance of provisions in force, household contents and similar
removal goods may be imported exempt from duty or tax provided
that:

1) the relevant person immediately prior to the moving to Norway,
   has been resident abroad for a continuous period of at least
   one year,

2) the relevant person has owned or been in possession of as well
   as used the items during his/her stay abroad and which he/she
   will continue to use in this country,

3) the items bear trace of having been used, and

4) a written declaration by the owner is presented to Customs on a
   specified form (please see the first page) at the time of the
   importation.

Examples of "household contents and similar removal goods" are
pianos, grand pianos, house organs, grammophones, radio- and
television material, refrigerators, washing machines, type writers,
bicycles (without motor) and silverware. However, motor vehicles,
pleasure craft and professional equipment (such as dentist
equipment, watch maker tools etc) are considered "household
contents and similar removal goods".

Special provisions concerning duty or tax exemption on certain
conditions for used motor vehicles and pleasure craft which are
imported in connection with the owner taking up residence in
Norway. A copy of these provisions may be obtained by contacting
Norwegian Customs and Excise.

New items and goods for consumption (household effects, spirits,
wine, beer and tobacco goods) may not be imported exempt from
duty or tax as removal goods. The owner must in his declaration
say whether the importation includes such items (please see the
form on the front page, No. 2).

In addition, the relevant person must in his declaration say whether
any weapon or ammunition are being imported because such
importation may take place only by permission from the local head
of police in the area of residence (please see the form on the front
page, No. 4).

1) Information concerning television sets and VCRs with tuner (built
   in or detached) must be given in box No. 3 on the front page
   because the material is subject to control by Norges Elektriske
   Materiellkontroll (NEMKO) in pursuance of Act of 24 May 1929
   concerning supervision of electric installations and subject to excise
duty in pursuance of the Act concerning broadcasting of 13 June
1980 and to the Resolution of the Storting (Norwegian Parliament).

Removal goods should be accompanied by a special list of the
items with information whether these items are new or have been
used. Such a list will contribute to simplify the Customs control.

Norwegian Customs and Excise may upon request decide to
conduct a Customs control of the removal goods in the consignee's
home when appropriate.

The above-mentioned declaration must be presented to Norwegian
Customs and Excise when the removal goods are declared. The
owner or the person who has disposal of the goods who is
prevented from being present at the Customs clearance, must
ensure that the carrier or another person who acts on his/her
behalf, can produce a declaration signed by the owner or the
person who has disposal of the goods. The removal goods cannot
be cleared before the declaration has been correctly completed and
lodged.
